

CARMEN

Your choice for high quality retail lighting

CARMEN is a completely new hybrid reflector and lens design. It takes better advantage of light emitted by a light source, reduces glare and protects the COB from tampering and dust. This – when compared to metal coated reflectors – results in improved optical performance, sharp cutoff and minimized spill light.

NEW

CARMEN-RS

Premium quality 10° spot for retail lighting

FEATURES

- Ø70 mm, H 36 mm
- Hybrid design of lens and reflector providing high quality light performance
- Even as tight as 9° beam depending on the LED
- Ideal for retail lighting with clean cutoff, minimized spill light and low glare
- HEKLA compatible bayonet (twist and turn) mounting

TYPICAL APPLICATIONS

- Retail
- Architectural
- Track and spot lighting

CARMEN-RS

BEAM EXAMPLE

LED: SAMSUNG LCO2C
LES size: 8 mm
FWHM: 11°

Light distribution at different angles (%):

0-10°	70.3 %
10-20°	13.7 %
20-30°	7.5 %
30-40°	5.6 %
40-50°	2.0 %
50-60°	0.5 %
60-70°	0.1 %
70-80°	0.1 %
80-90°	0.1 %

COMPATIBILITY
